INDEPENDENT AUDITOR'S LIMITED ASSURANCE REPORT ON THE CONSOLIDATED SUSTAINABILITY REPORT FOR THE FINANCIAL YEAR 2024

To the Shareholders of Rompetrol Rafinare SA

Limited assurance conclusion

We have conducted a limited assurance engagement on the Consolidated Sustainability Report included in the Sustainability Section of the Annual Report of the Board of Directors of Rompetrol Rafinare SA on the Consolidated Financial Statements, as at 31 December 2024 and for the period 1 January 2024 – 31 December 2024, prepared by Rompetrol Rafinare SA ("the Entity") and its subsidiaries (together „the Group”), with official head office in 215 Navodari Boulevard, Administrative Pavilion, 907500 – Navodari, Romania identified by sole fiscal registration number RO1860712.

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Consolidated Sustainability Report of the Group as at 31 December 2024 and for the period 1 January 2024 – 31 December 2024 is not prepared, in all material respects, in accordance with the applicable statutory sustainability reporting framework foreseen in MF Order 2844/2016, Chapter 7¹, sections 7¹.3, including:

- compliance with the European Sustainability Reporting Standards (ESRS), including that the process carried out by the Group to identify the information reported in the Consolidated sustainability report (the "Process") is in accordance with the description set out in Chapter 1 General Information Presentation, subsection 1.5 ESRS 2 IRO-1 Materiality analysis and results according to the concept of double materiality of the Consolidated Sustainability Report and
- compliance of the taxonomy disclosures detailed in the Environmental Section, subsection Appendix - Report according to Article 8 of Regulation (EU) 2020/852 of the European Parliament and of the Council ("Taxonomy Regulation"), of the Consolidated sustainability report with the applicable reporting requirements of Article 8 of Regulation (EU) 2020/852 (the "Taxonomy Regulations").

Basis for conclusion

We conducted our limited assurance engagement in accordance with ISAE 3000 (Revised) "Assurance Engagements other than Audits or Reviews of Historical Financial Information".

The procedures in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Our responsibilities under this standard are further described in the Auditor's Responsibilities section of our report.

We are independent of the Group in accordance with International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code), together with the ethical requirements that are relevant to our assurance engagement of the Consolidated sustainability report in Romania, including Law 162/2017 with subsequent amendments ("The Law"), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our firm also applies International Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services engagements, which requires that we design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Other matters – comparative information

Our assurance engagement does not extend to information in respect of earlier periods.

Responsibilities for the consolidated sustainability report

The Board of Directors of the Company is responsible for designing, implementing and maintaining a process to identify the information reported in the Consolidated Sustainability Report in accordance with the ESRS and for disclosing this process in Chapter 1 General Information Presentation, subsection 1.5 ESRS 2 IRO-1 Materiality analysis and results according to the concept of double materiality of the Consolidated Sustainability Report.

This responsibility include:

- understanding the context in which the Group's activities and business relationships take place and developing an understanding of its affected stakeholders;
- the identification of the actual and potential impacts (both negative and positive) related to sustainability matters, as well as risks and opportunities that affect, or could reasonably be expected to affect, the Group's financial position, financial performance, cash flows, access to finance or cost of capital over the short-, medium-, or long-term;
- the assessment of the materiality of the identified impacts, risks and opportunities related to sustainability matters by selecting and applying appropriate thresholds; and
- developing methodologies and making assumptions that are reasonable in the circumstances.

The Board of Directors of the Company is further responsible for the preparation of the Consolidated Sustainability report, in accordance with the applicable statutory sustainability reporting framework foreseen in MF Order 2844/2016, Chapter 7¹, sections 7¹.3, including:

- compliance with the European Standards for Reporting on Sustainability;
- preparing the taxonomy disclosures of the Consolidated Sustainability Report, in the Environmental Section, subsection *Appendix - Report according to Article 8 of Regulation (EU) 2020/852 of the European Parliament and of the Council ("Taxonomy Regulation")*, in compliance with Article 8 of EU Regulation 2020/852 (the "Taxonomy Regulation"); and
- designing, implementing and maintaining such internal controls that are necessary to enable the preparation of the Consolidated sustainability report that is free from material misstatement, whether due to fraud or error; and
- the selection and application of appropriate sustainability reporting methods and making assumptions and estimates about individual sustainability disclosures that are reasonable in the circumstances.

Those charged with governance are responsible for overseeing the Group's sustainability reporting process.

Inherent limitations in preparing the Consolidated Sustainability Report

In reporting a forward-looking information in accordance with European Standards for Reporting on Sustainability, the Board of Directors of the Company is required to prepare the forward-looking information on the basis of disclosed assumptions about events that may occur in the future and possible future actions by the Company. The actual outcome is likely to be different since anticipated events frequently do not occur as expected.

In determining the disclosures in the Consolidated Sustainability Report, the Board of Directors of the Company interprets undefined legal and other terms. Undefined legal and other terms may be interpreted differently, including the legal conformity of their interpretation and, accordingly, are subject to uncertainties.

Auditor's Responsibilities (for the limited assurance engagement)

Our objectives are to plan and perform the assurance engagement to obtain limited assurance about whether the Consolidated Sustainability Report is free from material misstatement, whether due to fraud or error, and to issue a limited assurance report that includes our conclusion.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence decisions of users taken on the basis of the Consolidated Sustainability Report as a whole.

As part of a limited assurance engagement in accordance with ISAE 3000 (Revised) we exercise professional judgement and maintain professional skepticism throughout the engagement.

Our responsibilities in respect of the Consolidated Sustainability Report, in relation to the Process, include:

- Obtaining an understanding of the Process but not for the purpose of providing a conclusion on the effectiveness of the Process, including the outcome of the Process;
- Designing and performing procedures to evaluate whether the Process is consistent with the Group's description of its Process, as disclosed in Chapter 1 General Information Presentation, subsection 1.5 ESRS 2 IRO-1 Materiality analysis and results according to the concept of double materiality of the Consolidated Sustainability Report.

Our other responsibilities in respect of the Consolidated Sustainability Report include:

- Obtaining an understanding of the Group's control environment, processes, and information systems relevant to the preparation of the Consolidated Sustainability Report but not evaluating the design of particular control activities, obtaining evidence about their implementation or testing their operating effectiveness;
- Identifying disclosures where material misstatements are likely to arise, whether due to fraud or error.
- Designing and performing procedures responsive to disclosures in the Consolidated Sustainability Report where material misstatements are likely to arise. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Summary of the work performed

A limited assurance engagement involves performing procedures to obtain evidence about the Consolidated Sustainability Report.

The nature, timing and extent of procedures selected depend on professional judgement, including the identification of disclosures where material misstatements are likely to arise, whether due to fraud or error, in the Consolidated Sustainability Report.

In conducting our limited assurance engagement, with respect to the Process, we:

- Obtained an understanding of the Process by:
 - performing inquiries to understand the sources of the information used by management (e.g., stakeholder engagement, business plans and strategy documents); and
 - Inspecting/Examining the Group's internal documentation of its Process; and

- Evaluated whether the evidence obtained from our procedures about the Process of the Group was consistent with the description of the Process set out in Chapter 1 General Information Presentation, subsection 1.5 ESRS 2 IRO-1 Materiality analysis and results according to the concept of double materiality of the Consolidated Sustainability Report.

In conducting our limited assurance engagement, with respect to the Consolidated Sustainability Report, we have:

- Obtained an understanding of the Group's reporting processes relevant to the preparation of its Consolidated Sustainability Report;
- Evaluated whether material information identified through the Process to identify the information reported in the Consolidated Sustainability Report is included in the Consolidated Sustainability Report;
- Evaluated whether the structure and the presentation of the Sustainability Report is in accordance with the European Standards for Reporting on Sustainability;
- Performed inquiries of relevant personnel and analytical procedures on selected disclosures in the Consolidated Sustainability Report;
- Performed substantive assurance procedures based on a sample basis on selected disclosures in the Consolidated Sustainability Report;
- Obtained evidence on the methods for developing material estimates and forward-looking information and on how these methods were applied;
- Obtained an understanding of the process to identify taxonomy-eligible and taxonomy-aligned economic activities and evaluated the regulatory compliance with *of Article 8 of Regulation (EU) 2020/852 (the "Taxonomy Regulations")* of the information provided in the Sustainability Report
